Full stack web developer with a keen interest in solving difficult problems, and experience in JavaScript, Ruby based programming, and event management. My technical abilities, communication skills, and talent for logistics and planning helps me find creative solutions through code for any company.

TECHNICAL PROJECTS

Meal Buddy, *An app that allows users to add recipes to a meal planner and creates shopping lists*

- Applied CRUD features with React's virtual-DOM to render and update fetched data from custom built API endpoints
- Built custom Rails APIs to handle fetch requests for a fast single page application experience with no refreshes
- Used Vanilla CSS to design a responsive front end
- Utilized JWT to create access tokens

Piano Roll, *A musical interface that displays audio notes and can play midi tracks*

- Built a React based web platform
- Converted MIDI files into JSON format
- Created a custom RESTful API with Ruby on Rails

Calorie Counter, *An app that allows users to log meals and track calorie intake*

- Used jQuery to handle events triggered by users to load data from the server without a browser page refresh
- Implemented AJAX requests to make GET and POST requests with the RESTful API that was built with Rails
- Used PostgreSQL as the database
- Utilized ActiveRecord::Serializer to create custom JSON responses

Cook Finder, *Allows chefs to sell their food product to customers based on their location*

- Used Ruby on Rails as the MVC framework in the development of the application
- Designed the database schema and configured ActiveRecord associations

TECHNICAL SKILLS

JavaScript; React; Redux; jQuery; Ruby; Rails; HTML; CSS; Bootstrap; Sass; Git

EMPLOYMENT HISTORY

Uniworld Tours, Long Island City, NY

Director of Operations, April 2010 - December 2016

- Coordinated, facilitated and managed over 100 travel, meeting and special events for business and tour groups per year
- Negotiated and reviewed contracts for companies such as Google and IBM, including budget and logistics issues to do with facilities, transportation, lodging, food and entertainment activities
